## ALLOWANCE

### *Examiner's Amendment*

Authorization for this examiner's amendment was given in a telephone interview with Edward Kessler, Reg. No. 25688 on July 20, 2010.

The application has been amended as follows:

Claim 1, line 1: before "award of a plurality", delete "the" and insert – an --.

Claim 1, line 18: before "either the upper", delete "of" and insert – to --.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

The closest prior art for the features of the claimed invention are Olsen, US 6,110,043 (hereinafter Olsen), Marks et al., US 2003/0236116 A1 (hereinafter Marks), and Nakatsu, US 2005/0079911 A1 (hereinafter Nakatsu).

Olsen, alone or in combination, with Marks and Nakatsu does not disclose an apparatus or a method for determining the award of a plurality of prizes having respective prize values, the apparatus including:

memory for storing data indicative of a current prize value;

an input device being responsive to input signals from a respective plurality of gaming terminals for providing an increment signal;

a controller for defining the current prize value as a first of the prize values and being responsive to the increment signal for incrementing an accumulated value toward the current prize value; and

a comparator being responsive to the current prize value and the accumulated value for determining if the current prize value is to be awarded and, if so, generating an award signal that actuates the controller to define the current prize value as a second of the prize values.

Thus, the claimed invention is neither anticipated by nor obvious over the closest prior art.

Art Unit: 3714

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
